EXPLENATION

Back in the olden days Skyclan used padlet as a way to chat during school. Now we use discord, this is now just a relic of the past <https://tinyurl.com/sc-fishcord-darkfang>, senior warrior

As anonymous pointed out, RIP padlet so there may be some people who still use padlet. (I forgot the key so idk how to color code this) We are currently in a war with The Resistance, and I'm developing a discord chat for school accounts. If you guys have discord friend me programming is underrated#0132.

SkyClan there is something you need to know

SkyClan is moving to discord. Padlet will be discontinued as of 6/1/2021. You will be given view access to the padlet so that you may have the link to discord. An important notice: Discord does not work in school accounts. You will need at least 1 home device that runs Windows 3 or newer. Thank you.

New Apprentices will take training over

this Summer. Last call for New

Apprentices will be on September 7th 2020.

New people can take themselves as Apprentice members of SkyClan over the Summer. This is a good opportunity for all of the members who are joining. They have to do the training over the Summer and take the SkyClan assessment. The limit of apprentice members will be due on September 7th, 2020. The sign-up sheet will be there starting from June 20th, 2020 if any of the people who want to be an apprentice and a member of SkyClan.

SkyClan is going to close during this summer.

SkyClan is going to shut down and SpikeStar will be offline for about 2 months. The current update list will have to be finished first.

Although this is sad, SkyClan will have a fresh start in September of 2020.

You ARE allowed to chat during the summer, but there is no guarantee you will meet Spikestar.

Introduction of Online Members

Since SkyClan has many members who are unable to meet, SkyClan introduced a new type of member: Online member. These are members who aren't required to meet publicly with SkyClan. However, if they do meet physically, they get a higher grade! The highest possible grade you can get by being online is a B+. Or actually, it varies. But if you are able to meet physically and you don't, it is your problem. So as well as a good option, this is a grade dropper.

SkyClan's Battle

First thing first, YeetClan and SkyClan had a battle. It was about when 3 YeetClan warriors invaded us. NetherStar 2.0 (Shiven), PomKit (Aditya), and BlazeStar (Veejhay). They came up rolling their hands in attack mode. With one push from Spikestar (Om), all three were injured. Then, Sneakyclaw (Adhithya) fought with PomKit (Aditya) and Sneakyclaw wom. BlazeStar (Veejhay) surrendered. The battle resulted in a final battle between Spikestar (Om) and NetherStar 2.0 (Shiven). That was won too. So SkyClan won its first battle.
